RESPONSIVE & RELIABLE - EVERY TIME SINCE 1978

OUR HISTORY - Gulf Sales & Supply has roots in the Gulf Region dating back to 1978. The current business started as M&M Construction Materials in Mobile, Alabama in 2011, maintaining a customer-first service model, tailored to the construction industry. In 2018, Gulf Coast Industrial Services & Supply was acquired, enabling the company to expand its footprint into Baldwin County, AL and the Florida panhandle. Headcount and inventory were doubled, while the customer base widened to include municipalities, marine and industrial customers, meshing nicely with its strong construction supply business. In 2023, Gulf Sales & Supply in Pascagoula, MS was added to the fold. This long-established business added premier vendor relationships, decades long name recognition, and a strong geographic presence in the area. The acquisition again doubled the company's size and brought with it the current name – Gulf Sales & Supply.

"Our strategic growth has enabled us to solidify our responsiveness and reliability to our customers," says company President, Kirk McRee. "By adding product lines, servicing additional types of customers, and strengthening our operations, we have grown in ways that matter. That growth has made us a more reliable partner our customers can count on."

Responsive. Reliable. Every Time.
